Gary Bunofsky   **Résumé**

Professional Experience

Freelance, Designer & Developer

July 2017 – Present | Remote

Working on client projects involving product design and development. Currently working with Vue and Laravel.

Thinkful, UX Mentor

November 2016 – Present | Remote

One-on-one mentor for students in the User Experience course. I help students learn UX through examples, assignments and encouragement.

EmployStream, Software Developer

November 2015 – July 2017 | Cleveland, Ohio

Continuously integrated features into EmployStream, a SaaS app that automates the hiring process. The application had over 200,000 users at the time of my departure.

Web Machine, Developer & Co-Founder

August 2012 – November 2017 | Remote

Designed custom WordPress websites for clients using modern web technologies.

Fathom, Web Developer

November 2014 – October 2015 | Cleveland, Ohio & Remote

Worked closely with clients to design and develop high-traffic websites.

Kent State University, Designer

January 2010 – May 2012 | Kent, Ohio

During my time at Kent State I worked closely with project managers to design web and print ads for clients.

American Red Cross, Design Intern

May 2011 – August 2011

Designed print and digital marketing material. I also coded and launched email campaigns.

Projects

Tiny Notes tinynot.es ›

Tiny Notes is a note taking app that allows you to share your writing in .json format.

Lease Lightning leaselightning.com ›

Lease Lightning is a fast way to send lease agreements to residents. Please note that this is a work in progress.

Veronica (321)-233-9118

Veronica is a chatbot that texts you news. If you want the latest, just text the words CNN or Time to (321) 233-9118.

Pass.js github.com/garybunofsky/pass.js ›

Pass.js tracks referral traffic. It helps analyze conversion funnels by capturing URL parameters through hidden fields.

Magenda magenda.co ›

Magenda is a light, browser-based to-do list. A quick, simple way to log items – no download required.

Skills and Technologies

Javascript (React, Angular & Node), CSS (SCSS & LESS), Ruby (Rails & Sinatra), PHP (Phalcon), SQL, Postgres, Mongo, Sketch and Adobe applications.

Education

Bachelor of Arts Communication Studies

Kent State University

August 2008 – August 2012
